Question			Answer	Marks	AO	Guidance
1			$\frac{\left(2+\sqrt{n}\right)\left(3-\sqrt{n}\right)}{\left(3+\sqrt{n}\right)\left(3-\sqrt{n}\right)}$	M1	1.1a	Attempt to multiply numerator and denominator by $\left(3-\sqrt{n}\right)$ May be implied by fully correct answer
			$\frac{6+\sqrt{n}-n}{9-n}$	A1 A1 [3]	1.1b 1.1b	Correct expansion for either numerator or denominator Final answer fully correct
