Question			Answer	Marks	AOs		Guidance
11	(i)		Any two distinct reasons eg classes of different widths represented by bars of same width eg vertical axis should be frequency density eg final upper class boundary not given eg should have continuous horizontal scale / no gaps between bars	**E1** **E1** **[2]**	**2.4** **1.1**		
11	(ii)	***A***	Positive correlation	**B1** **[1]**	**2.2b**	oe	
11	(ii)	***B***	9.8395 or 9.8 or 9.84 or 9.840	**B1** **[1]**	**1.1**		
11	(ii)	***C***	extrapolation	**B1** **[1]**	**3.2b**	oe	
11	(ii)	***D***	Birth rates and death rates in the Caribbean, may be very different from those in Africa.	**E1** **[1]**	**2.2a**	oe	Advantage
11	(ii)	***E***	eg other continents to select countries from	**E1** **[1]**	**2.2a**	eg a random sample would almost certainly not just include countries from Africa	Advantage
11	(iii)		Eg Generate a random number, *n*, between 1 and 4 and select the *n*th item in the data set. Eg Select every 4th item on the list thereafter (stopping when 14 have been selected)	**B1** **B1** **[2]**	**1.2** **1.1**	Candidates may choose other valid starting points Candidates may choose other valid intervals
