- The acceleration due to gravity is denoted by $g\,\text{m s}^{-2}$. When a numerical value is needed use $g = 9.8$ unless a different value is specified in the question.

1 A particle moves along a straight line. Its velocity $v\,\text{m s}^{-1}$ at time $t\,\text{s}$ is given by $v = 2t + 0.6t^2$.

Find an expression for the acceleration of the particle at time t. **[2]**
