Question	Answer	Mark	Mark scheme	Additional guidance
8 (a)	310	M1	for 360 – 50	
		A1	cao	
(b)	Explanation	C1	for explanation relating to the type of angle 50° is, or an explanation why it is not an obtuse angle **Acceptable examples** It's (50°) an acute angle an angle below 90 is acute because it (50°) is less than 90 It (50°) is too small to be an obtuse angle an obtuse angle is greater than 90 (but less than 180) an obtuse angle is greater than 50 **Not acceptable examples** because 50° is not an obtuse angle an angle of 50° is a reflex angle an obtuse angle **is** all angles greater than 90 an obtuse angle is an angle greater than 120 an obtuse angle <u>is 90</u> or more	Do not accept contradictions in the answer, eg. "an obtuse angle is greater than 180 so 50 is an acute angle" **or** "an obtuse angle is greater than 90 and less than 270"
