Question	Answer	Mark	Mark scheme	Additional guidance
21	$180 - 4e$ and reason	M1	for angle $ACD = e$ **or** for angle ADC + angle $BAD = 180$ **or** for angle $BAX = 3e$ (where X lies on DA extended)	Angles must be clearly labelled on the diagram or otherwise identified
		A1	for $180 - 4e$ oe	May be unsimplified
		C1	(dep M1) for an appropriate reason relating to parallel lines from alternate angles are equal or allied angles / co-interior angles add up to 180 or for corresponding angles are equal	Underlined words need to be shown Reason needs to be linked to their method, which can be implied from correctly identified angles (stated or written on the diagram)
