| Question | Answer | Mark | Mark scheme | Additional guidance |
|---|---|---|---|---|
| 28 | 7.96 | M1 | for method to find volume of cylinder,<br>eg $\pi \times 3^2 \times 10$ (= $90\pi$ or 282.74…) | |
| | | M1 | for method to find density, eg 2250 ÷ "282.74…"<br>**or** 2250 ÷ [volume] | [volume] is any value they clearly think is the volume of the cylinder but must come from a calculation and must not be 3 or 10 |
| | | A1 | for answer in the range 7.95 to 7.96 | |
