Question	Answer	Mark	Mark scheme	Additional guidance
10	Yes (supported)	P1	for starting a process of working with time eg for undertaking some time conversion eg 85 mins is 1 hr 25 mins, 1 hr 45 min is 105 mins **or** for recognition that 1 h = 60 min (eg 85 = 60 + 25)	Time conversion may be implied by a correct addition over the hour eg 8.30 + 1h 45m = 10.15, 10.30 + 85 = 11.55 Can be shown at any stage.
		P1	for a correct addition of at least two times eg 15 + 85 =100 **or** a correct duration eg 8 30 + 1 h 45 m = 10 15 **or** a correct subtraction eg 12 (noon) – 15 = 11 45	A correct duration can be shown using their times for any of the stages. Subtraction of any of the time durations
		P1	for a complete process to justify the decision eg 8 30 + 1 hr 45 min + 85 + 15 (= 11 55) **or** 105 + 15 + 85 (=205 min) **and** 12 (noon) − 8 30 (= 210 min)	Accept their figures for 1 hr 45 min, 85 etc as long as it is clear they are related.
		C1	Yes **and** accurate figures eg 11 55 **or** 205 **and** 210
