Question	Answer	Mark	Mark scheme	Additional guidance
18	4.8	P1	for finding missing length, eg 14 – 3.8 – 3.8 (= 6.4)	
		P1	for method to find area of triangle, eg [missing length] × 6 ÷ 2 (= 19.2)	Where [missing length] can be "6.4" or identified in working or on the diagram as the missing length
		P1	for method to find area of rectangle, eg [area of triangle] × 3.5 (= 67.2) **or** writes an expression for the area of rectangle eg $14w$ or $14w \div 3.5$	[area of triangle] must be identified as the area of the triangle OR come from: [missing length] × 6 ÷ 2 or [missing length] × 6 or [decimal] × 6 ÷ 2
		P1	for method to link both areas eg $14w$ = [area of triangle] × 3.5 or [area of triangle] = $14w \div 3.5$ or [area of triangle] × 3.5 ÷ 14	
		A1	cao	Award 0 marks for a correct answer without correct supportive working.
