Question	Answer	Mark	Mark scheme	Additional guidance
22 (a)	24.6	M1	for finding 5 products within intervals (including end points) with not more than one error, may be seen near table. eg 2×12.5 (= 25), 8×17.5 (= 140), 13×22.5 (=292.5), 21×27.5 (= 577.5), 6×32.5 (= 195) or for 1230	<table><tr><th>Min fx</th><th>Max fx</th></tr><tr><td>20</td><td>30</td></tr><tr><td>120</td><td>160</td></tr><tr><td>260</td><td>325</td></tr><tr><td>525</td><td>630</td></tr><tr><td>180</td><td>210</td></tr></table>
		M1	for $\Sigma fx \div \Sigma f$ eg ("25" + "140" + "292.5" + "577.5" + "195") ÷ "50" or "1230" ÷ "50"	Σfx must come from 5 products, fx within intervals (including end points)
		A1	for 24.6 oe	

Question	Answer	Mark	Mark scheme	Additional guidance
22 (b)	No, with reason	C1	for No **and** reason **Acceptable** No, the median is in the interval $25 < T \leq 30$ No, the median is in the group containing the 25(.5)th temperature No, she did not take into account frequency No, the frequencies are not the same for each group. **Not acceptable** No, the median is 27.5 No, the median is higher than 22.5 $25 < T \leq 30$ Yes, …	Any incorrect statement as part of a correct response can be ignored unless it contradicts the statement,
