9 Selina has a bag of 22 counters.

5 of the counters are blue.
9 of the counters are red.
8 of the counters are pink.

Selina takes at random a counter from the bag.

Write down the probability that Selina

(i) takes a red counter,

.....

(1)

(ii) does **not** take a pink counter,

.....

(1)

(iii) takes a white counter.

.....

(1)

(Total for Question 9 is 3 marks)
