Question			Answer	Marks	AOs		Guidance
9	(a)		$a = 1$ and $b > 1 \Rightarrow a^b = 1$ and $b^a = b$ Hence $a^b < b^a$	B1 E1 [2]	1.1 2.2a	 Convincing completion; AG	Subbing values may score B1 but not E1
9	(b)		Integer values of a and b with $b > a > 1$ such that a^b not greater than b^a	B1 [1]	2.3	Possible values • $a = 2, \quad b = 3$ • $a = 2, \quad b = 4$
