Question	Answer	Marks	AO	Guidance
12		**B1** **B1**	**3.2a** **2.2a**	Correct triangles identified At least one height correctly found and related to diagram
	Each triangle has area half base times height so $\frac{(2^2-1^2)}{2}$, $\frac{(3^2-2^2)}{2}$ and $\frac{(4^2-3^2)}{2}$.	**B1** **[3]**	**2.4**	Correct completion (including base =1 either labelled on at least one triangle or stated (probably in calculation)) Dep on **B2**
