- The acceleration due to gravity is denoted by g m s^{-2}. When a numerical value is needed use $g = 9.8$ unless a different value is specified in the question.

1 A particle moves along a straight line. The displacement s m at time t s is shown in the displacement-time graph below. The graph consists of straight line segments joining the points $(0, -2)$, $(10, 5)$ and $(15, 1)$.

(a) Find the distance travelled by the particle in the first 15 s. **[2]**

(b) Calculate the velocity of the particle between $t = 10$ and $t = 15$. **[2]**
