

Question	Answer	Mark	Mark scheme	Additional guidance
16	0.78	P1	for using 0.75 or 0.25 in a relevant product, eg $0.75 \times x$ or $0.25 \times y$	Allow different letters Could work with fractions
		P1	for using two products to form an equation, eg $0.75x + 0.25y = 0.36$	
		P1	for a correct equation in one variable, eg $0.75(1 - p) + 0.25p = 0.36$ or $0.75f + 0.25(1 - f) = 0.36$	Could set up an equation for pass $\times$ pass + fail $\times$ fail = 0.64
		A1	oe	Accept 78% or any equivalent fraction, eg $\frac{39}{50}$, $\frac{156}{200}$
