

Question	Answer	Mark	Mark scheme	Additional guidance
12	$x = 3, y = -2$	M1	for a correct method to eliminate either variable or rearrangement of one equation leading to substitution (condone one arithmetic error)	Trial and improvement methods score 0 marks unless both x and y are correct
		A1	for either correct value of x or correct value of y	
		M1	(dep M1) for a correct substitution of found value into one of the equations or a correct method leading to the second value (condone one arithmetic error)	
		A1	$x = 3, y = -2$
