

Question		Answer	Mark	Mark scheme	Additional guidance
15	(a)	0.55, 0.67, 0.33, 0.35, 0.65	B1	for 0.55 in correct position	Can be seen as fractions or percentages
			B1	for the branches for the second game correct	
	(b)	0.341	M1	for one correct product, eg $0.45 \times \text{“0.33”}$ (=0.1485) or $\text{“0.55”} \times \text{“0.35”}$ (=0.1925) or $0.45 \times \text{“0.67”}$ (=0.3015) or $\text{“0.55”} \times \text{“0.65”}$ (=0.3575)	Follow through acceptable for method marks from their tree in part (a) providing probabilities are less than 1. Accept fractional equivalents
			M1	for correct method eg $(0.45 \times \text{“0.33”}) + (\text{“0.55”} \times \text{“0.35”})$ or $1 - (0.45 \times \text{“0.67”}) - (\text{“0.55”} \times \text{“0.65”})$	
			A1	answer in range 0.34 – 0.341 oe
