

Question		Answer	Mark	Mark scheme	Additional guidance
12	(a)	6	M1	for an attempt to evaluate 1.13^n for at least one value of n (with $n > 1$)	1.13, 1.27..., 1.44..., 1.63..., 1.84..., 2.08... May be used with a value Values rounded or truncated to 2dp or better
			A1	6 years coming from finding n such that $1.13^n > 2$	
	(b)	Explanation	C1	for explanation Acceptable examples it will decrease the number of years will go down we can't tell (as we don't know how much it is increasing by) it will be an overestimate Not acceptable examples it will increase it will be an underestimate
