

Question	Answer	Mark	Mark scheme
17	3.6	P1	process to find the volume scale factor, eg $1587.762 \div 58.806 (= 27)$ or $58.806 \div 1587.762 (= 0.037\dots)$
		P1	process to find the height of B , eg $2 \times 43.74 \div 8.1 (= 10.8)$ or process to find the area of A , eg $43.74 \div (\sqrt[3]{27})^2 (= 4.86)$ or $43.74 \times (\sqrt[3]{0.037\dots})^2 (= 4.86)$
		P1	complete process to find height of A , eg “10.8” $\div \sqrt[3]{27}$ or “4.86” $\times 2 \div (8.1 \div \sqrt[3]{27})$
		A1	cao
