

Question	Answer	Mark	Mark scheme	Additional guidance
23	Shown	M1	for start to process using ratio, eg $1 : 1 + 2 : 1 + 2 + 3 (= 1 : 3 : 6)$	Values may not be seen in a ratio, can still award M marks May be seen combined with algebra
		M1	for process to write down ratio of areas of triangles eg $1^2 : 3^2 : 6^2 (= 1 : 9 : 36)$	
		C1	for correct working leading to answer, eg $1 : 9 - 1 : 36 - 9 = 1 : 8 : 27$
