

Question	Answer	Mark	Mark scheme
21	98	P1	for (total number of gold =) $6x - 3$
		P1	for forming an equation, eg $\frac{x}{6x - 3} = \frac{2}{11}$
		P1	(dep on P2) for correct substitution of their value into all expressions, eg $7 \times "6" - 11 + "6" + 5 \times "6" - 3 (= 64)$
		A1	98
