

Question	Answer	Mark	Mark scheme	Additional guidance
9	2820	P1	for start to process to find height of triangle, eg $\tan(40) = \frac{h}{5}$ oe or equivalent process to find the height of the triangle or start to process to find slant height, eg $\frac{10}{\sin 100} = \frac{x}{\sin 40}$	
		P1	for complete process to find height of triangle, eg $5 \tan 40$ (= 4.19...) or complete process to find the slant height, eg $\frac{10}{\sin 100} \times \sin 40$ (= 6.5...)	Accept 4.2
		P1	for start of process to find volume of prism, eg $10 \times 20 \times 12$ (= 2400) or $0.5 \times 10 \times \text{“4.19...”} \times 20$ (= 419....) or $\frac{1}{2} \times 10 \times \text{“6.52...”} \times \sin 40 \times 20$ (419....) or process to find total area of cross section, eg $0.5 \times 10 \times \text{“4.19...”} + 10 \times 12$ (= 140.9...) or $\frac{1}{2} \times \text{“6.52...”} \times \text{“6.52...”} \times \sin 100 + 10 \times 12$ (= 140.9...)	$10 \times 20 \times 12$ may be seen as part of a calculation to find the volume of the prism
		P1	for complete process to find total volume, eg $(0.5 \times 10 \times \text{“4.19...”} + 10 \times 12) \times 20$	
		A1	for an answer in the range 2810 to 2820	If an answer is given in the range in working and then rounded incorrectly award full marks.
