

Question	Answer	Mark	Mark scheme	Additional guidance
12	23.4	M1	for stating that $AC = 8$ or for a relationship that may be used to find AC eg $(AC =) 8 \times \tan 45$ or $\tan 45 = \frac{AC}{8}$	May be seen on diagram May use the sine rule
		M1	for relationship that may be used to find AB , eg $\sin (20) = \text{“}8\text{”} \div AB$ or $(AB =) \frac{\text{“}8\text{”}}{\sin 20}$	
		A1	for answer in the range 23.3 to 23.4	If an answer is given in the range in working and then rounded incorrectly award full marks.
		M1	Alternative for a relationship that may be used to find AD eg $\cos (45) = 8 \div AD$ oe or $(AD =) 11.3(13\dots)$	May be seen on diagram
		M1	for a relationship that may be used to find AB , eg $\frac{AB}{\sin 45} = \frac{\text{“}11.3\text{”}}{\sin 20}$	
		A1	for answer in the range 23.3 to 23.4	If an answer is given in the range in working and then rounded incorrectly award full marks.
