

Question	Answer	Mark	Mark scheme	Additional guidance
21	$(7, -196)$ supported	P1	for process as far as $4(x^2 - 14x)$ or $(2x - 14)^2 + c$ or for $(x - 7)^2 - 49$	c may be 0
		P1	for full process to complete the square eg $4((x - 7)^2 - 49)$ or $(2x - 14)^2 - 196$	
		A1	for conclusion from correct use of completing the square
