

19 $T = \frac{w}{a - c}$

- $w = 435$ correct to the nearest 5
- $a = 9.8$ correct to 2 significant figures.
- $c = 2.5$ correct to 2 significant figures.

By considering bounds, calculate the value of T to a suitable degree of accuracy.
You must show all your working and give a reason for your final answer.
