

16 Two jars are mathematically similar.

- (a) Work out the height, h cm, of the smaller jar.
Give your answer correct to 1 decimal place.

..... cm
(4)

The surface area of the smaller jar is $A\text{ cm}^2$
The surface area of the larger jar is $pA\text{ cm}^2$

- (b) Find the exact value of p .

$p =$
(1)
