

20 The graph of $y = f(x)$ is shown on the grid.

(a) On the grid, draw the graph with equation $y = f(x + 1) - 3$ (2)

Point $A(-2, 1)$ lies on the graph of $y = f(x)$.

When the graph of $y = f(x)$ is transformed to the graph with equation $y = f(-x)$, point A is mapped to point B .

(b) Write down the coordinates of point B . (,)
(1)
