

24 A circle has equation $x^2 + y^2 = 12.25$

The point P lies on the circle.

The coordinates of P are $(2.1, 2.8)$

The line $\mathbf{L}$ is the tangent to the circle at point P .

Find an equation of $\mathbf{L}$.

Give your answer in the form $ax + by = c$, where a , b and c are integers.
